EXPERIENCE

UIX DESIGNER AND FRONT END WEB DEVELOPMENT APPRENTICE
NASHVILLE SOFTWARE SCHOOL | JAN 2018 - MAR 2018

- Gained extensive experience collaborating with teams in an environment that simulates real-world product development.
- Created single page applications in JavaScript, HTML, CSS & Bootstrap.

UX DESIGNER

RARE GENOMICS INSTITUTE | SEP 2016 - PRESENT

- Created low-fidelity prototypes using Balsamiq as a wireframe tool and conducted task-based remote unmoderated user test.
- Created high-fidelity interactive mockups using Sketch / InVision prototyping tool and conducted remote unmoderated usability test.
- Provided feedback from usability findings to other team members.
- Modeled requirements in use cases along with Business Analyst by holding combined walk-through meetings, which resulted in getting the Business Stakeholders and Software Development team on the same page about the requirements.

MANUAL QA TESTER

RARE GENOMICS INSTITUTE | APR 2016 - MAY 2017

- Collaborated with Project Manager, Business Stakeholders and Software Development Team to establish a list of requirements for new version of the Web Application.
- Evaluated the objective of the web application and user stories to create actionable test plans.
- Provided feedback from web application test findings to other team members.
- Collaborated with Developers to reproduce errors, identify issues, resolve problems, and optimize the end user experience.

EDUCATION

BACHELOR OF ARCHITECTURE - University Of Pune, India
BUSINESS ANALYSIS CERTIFICATE - Duke University Management Training & CEG
